

TEXAS, COLLEGE STATION 77843-3147. Texas A&M University. The Department of Geography (<http://geography.tamu.edu>) invites applications for a tenure-track **Assistant Professor** position in **Climatology** with research interests in hydroclimatology or land-atmosphere interactions to begin in September 2009. We seek a scholar with the ability to enhance the department's strengths in physical geography, and who will take advantage of the outstanding collaborative opportunities within geography and with other departments, research units, and interdisciplinary initiatives within the College of Geosciences and university (e.g., Department of Atmospheric Sciences, Center for Atmospheric Chemistry and the Environment, Watershed Management and Hydrological Sciences program; <http://geosciences.tamu.edu>). The successful applicant must have a strong commitment to quality teaching at the undergraduate and graduate levels and supervision of undergraduate, M.S. and Ph.D. level research; and demonstrate the potential to initiate and maintain a vigorous externally-funded research program. The Ph.D. is required at time of appointment.

Candidates should submit a letter of application, curriculum vitae, and names and addresses (including e-mail addresses) of three referees to Dr. Andrew Millington, Search Committee Chair. Review of applications will begin on December 15, 2008 and will continue until the position is filled. Texas A&M University is an Affirmative Action/Equal Opportunity Employer. The University is dedicated to the goal of building a culturally diverse and pluralistic community committed to teaching and working in a multicultural environment. We strongly encourage applications from women, underrepresented groups, and individuals with disabilities.
